TIBERSOFT SIGNS NEIMAN MARCUS

Neiman Marcus hires Tibersoft for comprehensive 46 restaurant rollout

WESTBOROUGH, Mass. July 2, 2007 -- Tibersoft has added prestigious retailer Neiman Marcus to its growing client roster. Neiman Marcus will use Tibersoft to monitor and manage their growing food operations in all 46 of their retail stores.

"We chose Tibersoft for its ability to build us one single view of everything we buy regardless of the source." said Kevin Garvin, Vice President of Food Service at Neiman Marcus Group. "Their services will also help us improve quality control."

"TiberNet was already connected to all the data sources so Neiman's setup will be complete mid-summer." said Keith Enstice, President of Tibersoft. "Neiman Marcus considered other approaches but concluded that leveraging Tibersoft's existing processes and infrastructure was the smart choice."
